FOR IMMEDIATE RELEASE

24/7 Response Team Representative Will Be at Towne West

(Sedgwick County, Kansas) –Every Thursday from 9 a.m. to 10 a.m., beginning June 20, a representative from the Sedgwick County “24/7 Response Team” will be on hand at the Community Information Booth in Towne West Mall to perform blood pressure checks and answer questions.

The “24/7 Response Team” was established as the second phase to the “Ready to Respond” program in order to promote safe families in Sedgwick County.

“At Sedgwick County, our top priority is the safety and health of all our citizens,” said Sedgwick County Commission Chairman Ben Sciortino. “This is a county service that we can bring out to those citizens who use the mall as part of their health programs.”

For more information on 24/7 or to have a member of the “Response Team” come to your group, call 660-9370.
